SANDRA DEAN of KFDA-TV has a smile and a trophy for Frank Belcher, 14 year old Canyon athlete. Frank came in second Monday in the Meteor Track Club Junior Marathon. Frank was first in his age group. The run was from Amarillo city limits to the Canyon city limits. Belcher is a junior high school ninth grader. Jim Beard, 17, Amarillo, the winner, is a high school senior. Frank's time was 1 hour, 21 minutes, 31.6 seconds. The winning time was 1 hour, 21 minutes and 31 seconds.

Belcher Close Second In Marathon Run Here

Jim Beard, Tascosa High School senior from Amarillo, sprinted past Frank Belcher of Canyon by ten yards to take over-all championship honors in the first Meteor Track Club's Junior Marathon here Monday.

Beard won the older division for 15-year-olds and up, recording a time of one hour, 21 minutes and 31 seconds in the 10.5 mile run from the Amarillo to Canyon city limits.

Belcher, only six-tenths of a second behind, claimed victory in the younger class for 14-year-olds and under with a clocking of one hour, 21 minutes and 31.6 seconds.

Canyon's Frank Mayfield, also in the younger division, finished a strong third over-all.

Beard, 17, is a varsity track star at Tascosa High School. Now looking ahead to his senior year, he has twice been runner-up in the mile run in District 3-AAAA high school competition.

In addition to track, Belcher, a 14-year-old, competes in football, basketball and baseball. He holds records at Canyon Junior High Relays and the High Plains Junior High Conference track meets.

Lanita Witt, a 16-year-old lass from Panhandle, scored a moral victory for the "weaker" sex by finishing sixth in the upper age group. She and two of her teammates from the state champion girls high school track team in Panhandle High participated in the race. Her time was one hour, 37 minutes and 15 seconds.

All the three girls entered completed the course and 20 of the 23 boys made it to the finish line. Each entrant finishing the race was awarded a medal.

Enrollment Figures Up

Enrollment for the first summer term at West Texas State University is expected to reach between 2,700 and 2,750 when registration is closed Saturday at noon.

With two days set for registration this year, 2,625 had started enrolling at the end of formal registration Tuesday. At a comparable period last year, 2,461 had started.

Final total first term enrollment last summer was 2,616.

President James P. Cornette estimated that about 100 more students are expected to complete registration before the noon Saturday deadline. Classes began Wednesday.

Rainfall Boosts Milo Crop Hope

Rains that have fallen here since last Thursday have prompted some Randall County farmers to begin dryland grain sorghum planting while others are waiting a few days for the soil to become "sowable".

Edgar Robinson, who farms in the Jowell Community south of Canyon, has started planting dryland maize since receiving .90 inches of moisture last Thursday.

There will be about another 10-day waiting period before R. B. Gist, Jr. begins planting his grain sorghums.

Gist, who farms southeast of the city, has received .85 inches of rain since last Thursday.

"We tried planting Tuesday but it was a little too wet," said Forrest Gruner, a farmer to the north of Canyon. "Our maize is ready to plant, but we hope for more rain to help the plants along."

Emil Olson, eight miles northwest of Canyon, received 2.28 inches of moisture since last Thursday.

Olson has completed planting corn and milo on irrigated land, he said.

An estimated 40,000 acres of irrigated crops were planted here in Randall County during mid-May, said Randall County Agent John Brazzil.

Brazzil said that because of land made available when dryland wheat was abandoned or killed by a late freeze, there will be more dryland than irrigated grain sorghums planted

Used Light Bulbs Sought

Burned out light bulbs in all sizes are being sought by two Canyon women to be used as a project for the Brownie-Girl Scout day camp.

Persons having used light bulbs may contact either Mrs. Elton Cox, OL5-4544, or Mrs. R. D. Olson, OL5-4029. The bulbs are needed by June 17.

New County Annex

Court, Architects Meet Here Monday

Randall County commissioners Monday decided to build another courthouse annex just north of the present main courthouse building.

The decision came after more than a year of discussing the need for more courthouse space.

Commissioners have investigated the possibility of renting or buying a commercial building for temporary use but Monday decided against taking that route.

Commissioners authorized County Judge Lloyd King to ask architects Clayton Shiver and Russell Megert to attend next Monday's meeting of commissioners court to discuss building plans.

Commissioner Bill Butler said he favors having the architects draw plans for the new annex and a new building to replace the old building.

He argued that the annex could be built now and a new main courthouse of matching architecture could be constructed at a later date when needed.

Commissioners Glenn Dowlen and B. R. Jones contended that plans for the main building might be obsolete by the time it is needed.

Commissioner Clarence Beckman had been a proponent of buying or leasing an existing commercial building.

"I think we ought to put an addition to the north of the present courthouse and have the architect draw plans for an overall courthouse," declared Butler.

"I think it's time to do something," said Dowlen. However Dowlen and Jones disagreed with Butler on the need for overall plans.

Tentative plans call for a two-story annex with a full

First Wheat For County

The first wheat harvested in Randall County was brought to Consumers Fuel Association and Elevators Monday morning by Canyon Mayor Paul Lindsey.

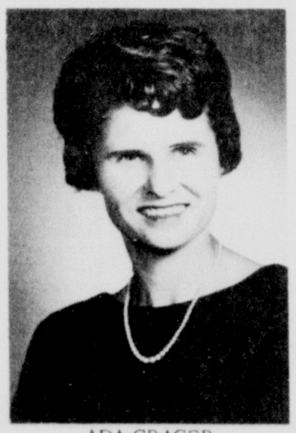

The dryland wheat, harvested from Mayor Lindsey's farm four miles southwest of Canyon, had a test weight per bushel of 59 lbs., according to Consumer Manager Arnold Prichard.

Lindsey reported a yield of about six bushels per acre. Moisture content was 17 percent.

For having the first wheat, Mayor Lindsey will receive a $25 bonus.

Canyon Teachers Get Fellowships

Two Canyon Junior High School teachers received fellowships to attend the 10th annual Petroleum Institute for Educators which concludes June 23 at the University of Houston. The Institute began Monday.

Mrs. Ada Crager, mathematics teacher at CJHS, was awarded a Continental Oil Company Fellowship and Swayne McCauley, seventh and eighth grade social studies teacher and CJHS coach, was given an Oil Industry Fellowship.

Mrs. Crager received her BS degree in mathematics from Texas Technological College and is working toward a masters degree at West Texas State University.

The mother of three has been in the school system here for three years.

McCauley, who received his BS degree from WTSU, has been at CJHS for two years.

The Institute, designed for science, mathematics and social studies teachers, is being coordinated by Dr. William Nesbitt, professor of education at the University of Houston.

Lectures, provided by experts from the oil industry, will include exploration production, manufacturing and research.

Three hours of graduate credit in education are granted upon successful completion of the course.

Two Receive Top Honors

Two Canyon singers won first division rating at State Solo contests in Austin recently.

Mary Starnes, daughter of the Rev. and Mrs. Newton Starnes, and Steve Hilton, son of Mr. and Mrs. Wayne Hilton, both took the honors in competition with students from throughout the State.

Miss Starnes, who sang "Tell Me Oh Blue Blue Sky", is a soprano. She is a senior at Canyon High School.

In addition to the top rating, Miss Starnes was selected as one of the outstanding soloists at the meet and her song was taped for a later broadcast for the Longhorn Broadcasting System, which has 47 radio station outlets.

Hilton, who plans to enroll at West Texas State University this fall as a freshman music major, sang "Nina".

Linda Adams, CHS choir director and Ric Wilson, CHS student, accompanied the singers to the State contests.

Both Miss Starnes and Hilton are members of the "TEXAS" cast.

Clean Up Plans Made

A chairman to head the annual Chamber of Commerce-sponsored Clean Up, Paint Up, Fix Up week will be appointed sometime this week, according to Roland Black, Chamber manager.

Aubrey Crossland, who is head of the COC Community Development Committee, will appoint a chairman who will select a campaign group.

Date for the annual week of activities will be announced at a later date.

Building Increases

Building permits issued in Canyon this May were up more than $60,000 over the same period last year.

Permits for May 1967 totaled $145,450, which included construction of five residences, two commercial buildings and several additions, according to E. A. Collie, city building inspector.

Figures for May 1966 were $80,600.

Canyon Student To Science Meet

Robert C. Olsen has been selected to attend the seventh annual Texas Nuclear Science Symposium to be held at the University of Texas in Austin, June 11-14.

Olsen is the son of Mr. and Mrs. Kenneth H. Olsen of Canyon. He will be a senior at Canyon High School this fall.

Accompanying Olsen will be Mrs. Treasure Brasher, science teacher at Canyon High School.

The attendance of Olsen and Mrs. Brasher at the four day meeting will be sponsored by Southwestern Public Service Company.

Olsen was president of the junior class this year, a member of the National Honor Society and the Student Council at CHS.

Mrs. Brasher graduated from West Texas State University in Canyon with top honors in the

Park Board Thumbs Down On Easement

A 269.4 acre site bordering Palo Duro Canyon State Park will be turned into a housing project instead of a wildlife museum as originally planned, according to O. P. "Pete" Cowart, one of the developers.

Cowart said the decision was reached after the Texas Parks and Wildlife Commission denied Fortress Cliffs, Inc., a 467-foot easement across park property.

Cowart said it will now be necessary to build about 3.5 miles of road from the Claude highway which is north of the project. The Fortress Cliffs tract borders park property for about 1,000 feet just north of Cottonwood Grove, one of the park's most popular camping and picnic places.

Cowart told the commission

A total of 85 youths had registered for the Texas Reader's Club at the Randall City-County Library by noon on Wednesday.

Enrollment began last Thursday.

The reading program is designed to encourage and promote reading among youth. Students may join at any time during the summer months.

Last year, 147 were enrolled during the summer and 67 of those met requirements to receive the special TRC certificate in a summer party, according to Mrs. Chester A. Pierle, librarian.

Students of all ages are invited to participate in the program which will conclude August 31.

Fire Department Drill Field Okayed

BY WAYNE BOARD

Construction of a permanent drill field for the Canyon Fire Department was approved by City Commissioners Monday.

Joe Rice, CFD captain and Jim Christopher, chief, appeared before the commission requesting approval for the project that would be modeled after the Texas Fireman's Training Field at Texas A&M University.

Equipment for the field, to be located west of the City Barn, will cost an estimated $200, not including labor by city employees, Rice told the commissioners. The property is presently owned by the City of Canyon.

Equipment for the training field will be a 35-foot drill tower, a pit for fire extinguisher work, and areas for practice in fighting petroleum blazes.

"There are very few cities our size and larger that have a training field, therefore it would be a credit to the Canyon Fire Department and the area we serve to be able to give our firemen the best training possible," Rice said in a

Times Story Promotion For Canyons

An article devoted to Palo Duro Canyon and the Pioneer Amphitheatre appears in the May 28 issue of the New York Times.

Located in the amusement section, the article also features a picture of the Lighthouse Rock which is described as a "fantastic rock formation in the scenic 120-mile long Palo Duro Canyon, situated in the Texas Panhandle."

The article, which covers about one-third of a page, was written by Molly Webster. The article states that "12 miles east of this small college town (Canyon) the road drops precipitously through vivid rock

A planning meeting for the men's softball league of Canyon will be held Friday night at 7 o'clock in the commissioners courtroom of the Randall County Courthouse.

All managers and players are urged to attend the session.

Wide Swath Gets Underway Today

Operation Wide Swath, a West Texas State University football season ticket drive designed to make choice grid seats available to persons throughout the Panhandle, began this morning.

J. W. Foust and Carrol Dozier of Amarillo are serving as co-chairmen of the Great Plains drive. Rancher Murphy White is heading Canyon's ticket campaign.

In the past week captains have been selected to head ticket sales in 26 Panhandle cities. These captains convened in Amarillo's First National Bank Wednesday night to plot their sales strategy.

"We hope through this drive to provide choice seats to people throughout the Panhandle," says Frank Kimbrough, West Texas State University athletic director.

"To date, our ticket drive people have already sold 34 more season tickets than last year's entire total. People who purchased season tickets

The people of Canyon Independent School District should be allowed to decide whether they need a new junior high school building.

Twice the school board has delayed putting the proposition before the public on grounds that all the board members were not present. On each occasion one member was absent.

If there is a legal quorum at the June 20 meeting, the decision should be made. I think the proposition should be put before the voters in the form of a bond issue for a proposed new junior high school.

I believe it would be the heighth of folly to attempt to repair the old building. The old junior high school building has been described variously as unsuitable and unsafe for use as a school building.

Chewed to pieces by termites, the old building (1923 vintage) would still be an old building even if we pour $750,000 into remodeling it.

A new building would cost an estimated $1,200,000. It would add 250 to 300 student stations. The present school building has 725 student stations and the proposed new building would have 1,000.

After 43 years of using it, I think the school district has gotten its money's worth out of the present junior high school building. Facilities at the building, even without the termites, are not adequate for modern teaching.

I think the question is simply this:

Do the people want to extract another year or two of use from the old junior high building at the expense of their children?

Do we think a horse and buggy school building is an adequate facility in which to prepare our youngsters to compete in the space age?

Washing clothes and churning butter were among the hardest tasks of the pioneer homemaker.

The museum here has an old time dasher churn. Curator Boone McClure says it will hold about 5 gallons of milk or cream. That much cream would make a heap of butter.

Housewives, before margerine, used to churn their butter and mold it into artistic designs.

Like I said before, churning butter is hard work. I drew some churning chores when I was a little guy. Then one day my dad brought home what certainly seemed to me to be the greatest invention since the wheel. It was a Daisy Crank Churn. It churned butter with paddles turn by power from a crank. All you had to do to make butter was just turn the crank.

Boone tells me of one ingenious fellow who put cream in a bucket and tied it to the sucker rod of his windmill. As the wind blew, the rod went up and down, agitating the cream and churning butter.

It has been too wet to work in my garden any this week. The bean vines are growing but so are the weeds.

I will sacrafice the garden if we can get more rain, though.

If left alone, the Israelis will cut the Arab armies to pieces within weeks if not days.

Tiny Israel, surrounded as she is by enemy Arab countries, is fighting for her life and she knows it. News dispatches from the front have described Egyptian soldiers as a rag tag outfit.

I was in Egypt during World War II and if present day Arabs make good soldiers the country has changed drastically. When I was there, children from their infancy were taught to beg and steal.

In Egypt and Pan-Arabia there were only two classes of people---the very rich and the very poor. The very poor do not make good soldiers for they have very little for which to fight.

There are not enough of the very rich to fill manpower needs of Arabic countries at war.

I doubt that the Arabs and Jews will ever live together peacefully. Their hate for each other dates back to the dawn of history. Such a hate is not likely to be buried over night.

We have just witnessed the death of the United Nations. It fumbled in the Congo.

Now it is floundering in its death throes over the Israeli-Arab conflict. It is not likely that any nation will be taking the United Nations seriously anymore.

When U. Thant ordered United Nations troops out of the Middle East at the behest of Egypt's Nasser, he delivered his organization the death blow.

It was, in theory, a great dream. In reality it was little more than a forum for international communism.

The United States let slip through its fingers just after World War II the one golden opportunity to preserve peace through the ages.

The US was in charge of the atom bomb and could have kept other nations, including Russia, from getting it. We could have forced inspection upon even the USSR and could have imposed Pax Americana upon the world.

The golden moment was fleeting. It was there and then gone forever.

Two Charges Filed Here

A 43-year-old Canyon man has pleaded guilty here to charges of driving while intoxicated and driving a vehicle without owner's consent.

Elwood Clark Nelson, of 2513 13th Ave., entered the pleas before Randall County Judge Lloyd King who set punishment at 20 days in jail plus a $50 fine on the alledged DWI incident and an additional five days in jail on the driving without owner's consent charge.

Nelson was arrested last Thursday morning on Farm Road 1541 just south of the Amarillo City limits by Highway Patrolman Ed Richards.

Richards said the man hit a parked vehicle on the South Washington Road.

Nelson is being held in Randall County jail.

FINANCING OUR SCHOOLS

(Editor's Note: This article is one of a series on Canyon Schools. It is written by a member of the faculty.)

At the present time the Canyon Independent School District has a very firm financial base. The total assessed valuation of the district is $51,651,920.00. The bonded indebtedness is $2,354,000.00. The tax rate for 1966-1967 on a one hundred dollar valuation is $1.38. $1.00 is for operation and 38¢ is for debt service. The 1966-1967 budget is $1,301,419.00 with $678,829.00 being provided locally and $622,590.00 from the state. $180,000.00 of the local funds is required each year for payment of bonds and interest. An amount in excess of $4,000,000.00 is invested in buildings and grounds. 52% of the total budget is supported by local funds and 48% is provided by state and federal funds.

The annual budget is prepared by the Superintendent of Schools and approved by the School Board. After the preparation of the budget and tentative approval by the school board, a public hearing is held, as required by law, in order to give the taxpayers an opportunity to consider the proposed budget and make suggestions for improvement. After these suggestions are received, the budget is carefully reviewed, the necessary corrections are made, and final approval is given by the School Board.

Expenditures are made in keeping with the budget. All financial accounts of the district are audited annually by a certified public accountant and the Texas Education Agency.

Highway Bids Let

Contract for widening Farm Road 168 and building a service road for US 60 in Randall County has been awarded to Ivan Dement, Inc., Amarillo.

The Amarillo firm's bid was $145,965, according to the Texas Highway Department.

Department officials said the 5.879 miles of work will include the widening of Farm Road 168 from Buffalo Lake to 2 miles north of Umbarger and the construction of a service road for US 60 just west of Umbarger.

The project is expected to require 100 working days.

basement.

Offices of the county clerk and county tax assessor tentatively will be located on the first floor of the annex. Plans call for offices for the district attorney, district clerk, district judge and a district courtroom to be located on the second floor.

The basement would be used for storage and for a maintenance area.

Preliminary estimates on cost of the annex have been set at $250,000. Beckman said a bond issue will not be required to build the new annex. He said time warrants could be used to finance it.

Commissioners court has been exploring the possibility of remodeling the present courthouse and providing new space on the fourth floor. Architects advised against this move and went so far as to label the present courthouse an "overloaded firetrap."

In other business, the court authorized Justice of the Peace Bill Wilson, who is in charge of maintenance of courthouse buildings, to have the interior of the South Amarillo courthouse annex repainted.

Commissioners delayed a decision until next week on a request by Highway Patrolman James Cadenhead for a two-way radio unit for a highway patrol car. The unit would cost about $800 and the county hopes that the federal government will participate in its purchase through civil defense.

The court decided to set a date next Monday for commissioners to sit as a board of tax equalization.

Clarence Beckman was authorized to advertise for bids for a new road sweeper for Precinct 2. B. R. Jones was authorized to advertise for bids for a new pickup truck for Precinct 1.

Elliott Office Supply of Amarillo was low bidder at $547.73 to supply two roller shelves for the district clerk's office and three for the county clerk's office. Eight firms submitted bids.

Commissioners authorized Judge King to call a meeting of commissioners court, Amarillo and Canyon Chambers of Commerce and Randall County Historical Survey Committee for 1:30 o'clock next Thursday afternoon in the district court room in the courthouse. The group will discuss plans for marking of "tourist trails" in Randall County.

"Tourist trails" are designed to attract tourists to the county and state and marking the trails is a part of a statewide program being promoted by the Texas Travel Trails Committees appointed by Gov. John Connally.

strata millions of years old."

Miss Webster says that the canyon "is a convenient one-night stopover and the park's attractions include the Pioneer Amphitheatre which will again this summer present Paul Green's 'TEXAS'."

The author further relates that "TEXAS" is a "symphonic drama which incorporates local folk legend, dance and music to celebrate the epic struggles of the settling of a new and difficult land".

Conclusion of the article is devoted to addresses of local firms with information on the canyons and the production "TEXAS".

written report.

"We know the training field can't be built all at once," he continued, "but we have a good part of the projects already located and could start building on it soon."

The proposed area, Rice said, would be about twice as large as the field used by the Amarillo Fire Department.

Rice said a block house might be constructed on the site for further fire-fighting training.

In other business, commissioners heard a summary of revenue and expenditures for the fiscal year 1966-1967. The summary indicates that Canyon is on sound financial footing, said City Manager Gary Gwyn.

Revenues for the period were $72,965.35 over that budgeted and expenses were $20,422.43 below that anticipated, the report shows.

Most of the funds not budgeted for a diesel-powered pumper for the CFD, elevated water storage tank and trash-collection equipment were on time deposit, Gwyn stated.

"Our past year was the best we've had in three years," Gwyn said.

The formulation of a pay plan and development of a set of personnel rules were discussed by the commission but no decision was made.

Gwyn proposed that the Carl S. Becker Company of Denver, Colo. prepare a plan that would include recruiting and examination of applicants, pay survey policy, pay administration, hours of work, holidays and overtime, leave, separation and suspension, employe relations and appeals.

Time required for completion of the project would be 60 days and cost would be $2,000 plus expenses for trips to Canyon by Becker.

Becker, who has a masters degree in management, was director of research and management for the city and county of Denver, Colo., 15 years before forming his company four years ago.

He has made surveys for 25 cities and four counties during that time.

Canyon has no organized set of personnel rules at this time, Gwyn said.

"A general policy exists but is scattered through the minute books of past years and is therefore difficult to administer," the city manager stated.

Final payment of $7,850.04 was made to High Plains Pavers of Plainview for 62,917 yards of single seal coating and 1,200 yards of strip seal recently completed.

Also approved was payment of $549.50 to McMorries and Associates, city engineers, for engineering services for the seal coat work. The figure is seven per cent of that paid the Plainview pavers.

After Gwyn recommended paving 12th St. between 9th Ave. and Hillcrest, Mayor Paul Lindsey was given authority to negotiate an agreement whereby the city would pay for the first 40 feet of paving on side streets.

Given approval by the city dads was a proposal by Chief Christopher that Neil Rogers, CFD waiting-list member, be allowed to occupy an apartment above the fire station.

Rogers is a sophomore student at West Texas State University and would do maintenance work for the CFD in return for rent of the apartment. The city will pay all utility bills.

The move was earlier approved by CFD volunteers.

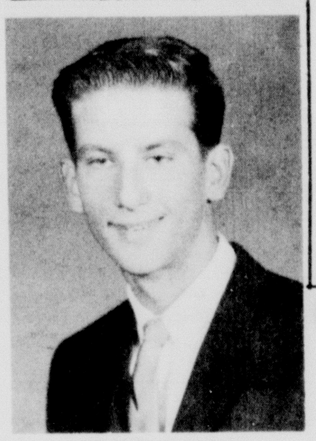

In a letter to the commission, Mrs. T. V. Reeves said she did not favor removing trees in order to widen Fifth Avenue.

Given approval was the second reading of Ordinance 309 pertaining to the hauling of trash to the city dumping grounds.

that Fortress Cliffs, Inc., planned to build a $250,000 living wildlife museum on the tract.

Cowart said the museum would have exhibited native animals in their natural habitat. Cowart said that in order to have access to the area, the corporation would need a 467-foot easement to the property from the park road near Water Crossing Number 5.

Cowart said his group offered to allow the commission to approve all structures planned in the project prior to construction. The group also offered to build and maintain the road over the easement and to refrain from ever selling liquor on the premises.

Paul Timmons, associate editor of The Amarillo Globe-News, appeared before the commission to oppose granting of the easement. Cowart said Hudson Moyer, Amarillo, state representative, opposed granting the easement. He made his position known by letter to the commission, Cowart reported.

Cowart said that without the easement within the park property it will be necessary to build 3.5 miles of road from the Claude Road and declared that this will be an expensive undertaking.

It will require the developers to bulldoze and blast a road 800 feet down the face of a cliff.

Owners of Fortress Cliffs, Inc., other than Cowart, are George Dowlen, R. E. "Barney" Barnard and Charles Allen.

WT Signs Three Cameron Aggies

Three starters on the nation's third-ranked junior college basketball powerhouse, Cameron College of Lawton, Oklahoma, have signed athletic contracts to attend West Texas State University.

The new Buffs are junior college all-america forward Simmy Hill, guard Bill Bullock and center Maurice Savage.

West Texas State's new head basketball coach, Dennis Walling, announced the triple signing here Tuesday afternoon. This brings the Buffs' basketball recruiting total to five. Walling had previously signed two Dallas Baptist Junior College players, all-america guard Wendel Hart and forward Gale Rhine.

Hill, one of the most sought after junior college athletes in the nation, tallied 799 points for a 25.8 scoring average last season. The 6-7 Pennsylvanian also led Cameron in rebounding, averaging 11 retrieves a game.

Bullock, regarded as one of the finest guards in Cameron history, rang up 640 points in helping boost Cameron to a 27-4 record. The 6-2 playmaker from Columbus, Ohio, averaged 20.6 points a game while connecting on 46 percent of his field shots and 75 percent from the charity line.

As a freshman, Bullock was named Most Valuable Player in the Region 2 Tournament. Last season, Bullock was cited as the Most Valuable Player in the Garden City, Kansas Holiday Tournament. He also reappeared as a member of the Region 2 All-Tournament team and landed a berth on the NJCAA All-Tournament team.

Savage, largest recruit of the three at 6-10 and 225 pounds, was a part-time starter at center last season. Only a freshman, Savage averaged seven points a game and six rebounds. His peak scoring performance came against Clarendon College when he hit 28 points.

"We feel that the addition of our five junior college transfers has been a big boost to our 1967 prospects," said Walling. "Next season will be a rebuilding year and we'll face the same rugged schedule, but with the players we have returning plus our new recruits we hope to be able to pull some upsets."

The new Buff mentor launches a recruiting tour of the Midwest and East Coast Tuesday morning when he flies to St. Louis. On Wednesday, Walling plans to recruit in the Columbus, Ohio area before departing that night for Philadelphia. He will attend the Indiana Coaching Clinic conducted in Indiannapolis Friday, Saturday and Sunday.

"Highlight of the clinic will be the all-star basketball game staged Saturday night," said Walling. "The game matches the top 10 schoolboy players of Indiana and Kentucky."

A friend of West Texas State, former Buff all-america Price Brookfield will be Walling's host for the clinic. Brookfield is one of the Indiana-Kentucky all-star game directors and head basketball coach at Indiannapolis' Hancock Central High School.

New 'Uncle' For 'TEXAS'

Charles Zimmerman of Hollywood, Calif., will portray Uncle Henry in the Panhandle Heritage Foundation-sponsored production of "TEXAS".

William A. Moore, the show's director, made the announcement Saturday at a "TEXAS" rehearsal.

Zimmerman, a native of Austin, has participated in professional theatre productions at New York, Hollywood, Houston, Puerto Rico and the Virgin Islands.

Zimmerman, who won acclaim for his television performance in Hansel and Gretel last year, has appeared in Shakespeare's "The Tempest".

Among those plays in which he has had character parts include "No Time for Sergeants", "Desperate Hours", "Guys and Dolls", "Little Mary Sunshine", "Auntie Mame" and "The Man Who Came to Dinner".

He replaces Andrew White who was forced to cancel his appearances because of illness in his family.

Rehearsals are scheduled daily until the production opens June 30 in Palo Duro Canyon State Park.

Teachers Familiarized With School Machines

BY WAYNE BOARD

Teachers, as they often do every summer, are going back to school in an attempt to learn new instructional methods and to improve present ones.

An audiovisual workshop, that drew 31 teachers from Rex Reeves and Gene Howe Elementary Schools for the two weeks of training, ends today.

The workshop, third of its kind here, was conducted by Mrs. A. B. Holt, curriculum director at Rex Reeves.

"New teachers need instructions on the machines," Mrs. Holt explained, "and others need to learn ways to handle new situations."

Although an instructor from West Texas State University, aided by Mrs. Holt, helped demonstrate some of the visual aids material two years ago, nothing of the magnitude of the present program was before attempted.

"I will also show the teachers how to better use the machines after school," said Mrs. Holt. "They also have conference periods where they learn."

Although an instructor can stand before a class and demonstrate machines, no practical application is received, Mrs. Holt noted.

After the uses of various machines is learned, the 'pupils' then try their hand at such tasks as synchronizing a recording to a film, projector and listening stations or threading a tape recorder.

TEACHER WORKSHOP that concludes today at Rex Reeves Elementary School included instruction in various visual aids to be used in the classroom. Demonstrating a projector for Mrs. Patricia Hall, left, and Mrs. Gloria McGill is Rex Reeves Principal Oscar Hinger. Both women are fourth grade teachers.

The teachers then go to other demonstration areas where they learn the uses of various materials, including producing transparencies for classroom use.

"You can operate these machines now," Oscar Hinger, Rex Reeves principal who demonstrated the devices, "so you can find the pitfalls before next fall."

Also assisting with workshop instruction was representatives from Panhandle Education Services Organization of Amarillo including Mrs. Flora Phillips, social studies; Mrs. Allegra Bush, language and literature; Mrs. Alta Smith, science; Mrs. Johnny Blackwell, tape recording and listening; Mrs. J. D. Strickland, modern instructional materials; and Dr. Strickland and Don Ray, graphic arts.

Others aiding the project from the two local schools were Bryce Slack, assistant principal at Rex Reeves, and Luther Lawless, Gene Howe principal, who served as consultants in the field of math and sciences.

In addition to being given instructions on "how to do", the classroom teachers were also given lectures by various machine and book company representatives.

Companies represented included Encyclopedia Brittanica, Laidlaw Brothers and 3-M.

Most of the machines used, Mrs. Holt explained, are available from one of the branches in the Canyon Independent School system. Others, she said, may be purchased at some future time for classroom instruction.

"These teachers at the workshop gave their free time in order to improve their instructions," Hinger noted.

"I definitely think this will help the teachers," said Mrs. Patricia Hall, Rex Reeves fourth grade teacher who was taking the instructions. "We can make better use of the materials we have at hand and also learn about new ones."

MRS. JIMMY DALE KILLINGSWORTH

Gardening Rewards Families

Gardening is a hobby for Mrs. William F. Schuette, who lives five miles east of Canyon.

"Gardening and yardwork are real gratifying hobbies for an individual or entire family," related Mrs. Schuette.

"Vegetable gardens in this part of the country require a lot of water. . . but the weeds can be the worst problem in raising a garden," said Mrs. Schuette explaining that she spends her extra summer hours with the garden project.

"One of the real reasons that I like to have a garden is so I can go out and pick a fresh vegetable salad when I want it," smiled Mrs. Schuette.

"When we lived in town we also had a little backyard garden. . .and even had vegetables to give away to friends," Mrs. Schuette commented.

Mrs. Schuette first came to Canyon in 1946. She and her husband were married in 1947. He is a native of Canyon and the son of Mr. and Mrs. Fred Schuette.

The Schuettes have two children including David, who is a freshman student at West Texas State University, and Marilyn, who is an eighth grade student at Canyon Junior High School.

Mrs. Schuette has been gardening for about 18 years. She says that you "can't ever really tell when to plant but it is best to wait until after the latest freeze of the spring."

"This year I planted leftover seed and just took a chance and they are coming up real well now," said Mrs. Schuette. Included in the summer garden plans at the Schuette home are all types of vegetables such as cucumbers, tomatoes, beans, onion, okra and rhubarb.

Mrs. Schuette said that she often prepares summer vegetables for the freezer. She shares two "from the garden" recipes with our readers in this week's edition of the Canyon News including the way to fix German Bean Salad and Rhubarb Pie.

GERMAN BEAN SALAD

Pick one pan of yellow wax beans. Wash and cook until done. Do not overcook. Drain beans. Combine with
1 med. onion, chopped
1/4 cup vinegar
3/4 cup water
1 tsp. salt
dash of nutmeg
dash of pepper
1/4 cup cooking oil

Refrigerate and serve.

Mrs. Schuette says that the special trick to the recipe is the dash of nutmeg. She said that the recipe may also be used for sliced fresh tomatoes and sliced cucumbers.

RHUBARB PIE

3 cups rhubarb, cut
1 cup sugar
1/2 tsp. grated orange peel
3 Tbsp. flour
1/8 tsp. salt
2 Tbsp. butter
1 9-inch pie shell, unbaked

Combine rhubarb, sugar, orange peel, flour and salt. Fill pie shell and dot with butter. Adjust top crust and bake in hot oven 450 degrees for 10 minutes. Reduce heat to 350 degrees and continue baking for additional 30 minutes.

MRS. WILLIAM F. SCHUETTE, east of Canyon, says that "gardening is an enjoyable hobby for one or the entire family" and shares several recipes for produce fresh from the summer garden with our readers.

1 tsp. chili powder
Salad oil
16 canned tortillas

License Exam Schedule Set

Schedule for drivers license examinations, to be given here each Thursday in the Randall County commissioners courtroom, has been announced.

Between 9 and 10:30 a.m. and 1 to 2:30 p.m. written tests will be given and appointments for driving tests will be made. Scheduled from 10:30 a.m. until noon and from 2:30 until 5 p.m. will be driving tests given by previous appointment.

The schedule must be followed, explained Lyndon Huckaby, highway patrolman-examiner, so the one examiner on duty can better schedule the applicants.

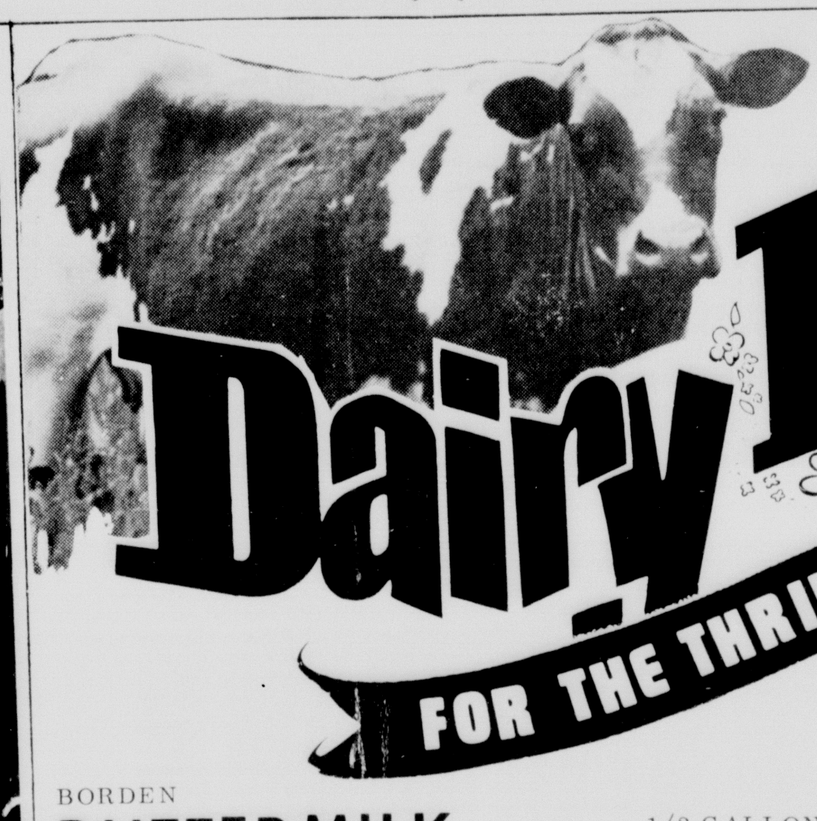

No telephone appointments will be accepted, he said.

Drivers handbooks, published by the Department of Public Safety, are available at the Randall County Sheriffs office.

Baptist Church Gets Director

Mr. and Mrs. Hugh Sanders and children were honored Sunday evening with a "get-acquainted" reception in Fellowship Hall of the First Baptist Church.

Sanders began duties Sunday as the new minister of music for the First Baptist Church. The Sanders family moved here from Pampa.

He was formerly music director at the Central Baptist Church of Pampa for eight years and was music director for Pampa High School.

Sanders will join the music department faculty of West Texas State University in September, where he will be director of the University Choir and will assist with the University Chorale. He will also teach voice lessons and private voice lessons.

Under Sanders' leadership, the Pampa A Cappella Choir in 1965 was selected over 25 other Texas high school choirs to present a concert at the Southwestern Division meeting of the Music Educators National Conference in Oklahoma City.

HUGH SANDERS

In 1966, the choir was one of two high school groups to present a program at the National Convention of American Choral Directors Association in Kansas City.

On both occasions, the Pampa choir premiered new compositions by Dr. Houston Bright, composer - in - residence and University Chorale director at WTSU.

Sanders attended Hardin-Simmons University and earned the B. M.E. and M. M. degrees from Baylor University. He taught a year at Thomas Jefferson High School in Port Arthur before joining the Pampa High School faculty.

He has been a clinician for the New Mexico Music Educators Association, and was lecturer for the Southern Baptist Music Week in Ridgecrest, N. C. He was guest conductor for a premiere performance of "A Cantata" by Eugene Butler at Glorietta, New Mexico.

For three years the Texas All-State Choir organizer, Sanders was recently re-elected vice president and state vocal chairman of the Texas Music Educators Association. He is choral chairman of the Texas University Inter - scholastic League New Music Selection Committee for 1967-71.

He has also written a number of articles for the "Southwestern Musician", published by the Texas Music Educators Association. He is a member of the Music Educators National Conference, American Choral Directors Association, Phi Mu Alpha Sinfonia, American Choral Conductors Guild, Texas Music Educators Association, and the Texas Choral Directors Association.

Softball Games Set

Girls softball team competition will begin here today when games are slated at 5 and 6 p.m. in the field behind Rex Reeves Elementary School.

A total of 38 girls from Canyon participated in tryouts recently to form four teams, said Coach Burwell Southern.

Team names will be selected by the girls, he said.

An additional 12 girls are needed for the teams, he said, and anyone interested may come by the ball park before game time tonight.

Swimming Classes Underway

Red Cross swimming lessons began Monday at the Canyon City Pool, according to Wayne Phemister, park and recreation superintendent.

The first series of lessons will be concluded June 16. Daily lessons include a 10 o'clock and 11 o'clock class. Cost of the lesson series is $10.

Five additional two-week lesson series will be conducted during the summer, according to Phemister. The classes are designed for beginners, intermediates and advanced and a class in diving will be offered if enough interest is shown.

Vacation In Far East Taken By Mrs. Prichard

BY LORENA MILLER

Mrs. Hud Prichard of 910 Sixth Avenue has returned from a 21-day trip to the Far East where she toured with a group of 18.

Enroute, the group stopped in Hawaii for several days before traveling on to Japan where they spent almost a week. Among points visited on the tour were Taipei, Taiwan; Bangkok, Thailand; Singapore; Hong Kong; and Okinawa.

Mrs. Prichard said that they flew across South Viet Nam where the pilot called their attention to the Mekong River and delta below.

"We had never seen so many servicemen as in Bangkok and Hong Kong," recalls Mrs. Prichard. She said that the group was in Hong Kong during the recent rioting and the curfew was on while they were there.

"I saw most of Japan barefooted," laughed Mrs. Prichard, explaining that while touring the temples of Japan the custom is to remove the shoes.

Guide for the tour was a Japanese university student who had been an exchange student in the United States and who plans to return to the states for further studies when he completes his degree there.

"Japan was a beautiful country," said Mrs. Prichard. "The people were very courteous and their buildings and culture tend to be artistic."

"I was especially impressed with the children. We visited several places where children were in uniform visiting," said Mrs. Prichard. "Their visits to the temples are included in their school program and they visit twice each year."

"We could converse with the children when we talked slowly. They are being taught English in their schools," related Mrs. Prichard.

"The traffic was terrific, it reminded me of a throng of bugs on the streets. . .but I never did see a dented car all of the time we were there."

Leaving Hong Kong, the group travelled to the new territories and saw the border of Red China. Speaking of the flow of refugees, Mrs. Prichard related that they were the "most heartbreaking part of her trip." The group saw numerous 8-10 story buildings which have been built at the edge of Hong Kong, especially for the refugees.

"The refugee buildings are not plumbed for water or anything and they are so crowded that some are even living on the rooftops," said Mrs. Prichard.

Traveling on to Bangkok by canal boat, Mrs. Prichard said that the canals were lush with vegetation and people living in sampans and junks dot the canals.

Mrs. Prichard said that she "saw women planting rice in the paddies and the whole country had a fishy smell."

In Taipei, Taiwan, the group stayed at a hotel owned by Madame Chiang Kai Shek. It was located on a mountainside. The hotel was entirely furnished with teakwood and marble floors. A consulate meeting with the South African delegates was in progress at the time the group was visiting the hotel.

The group also visited Pearl Harbor during their trip. They returned by way of Hawaii where she spent several days. "I'd like to go back to Hawaii someday," says Mrs. Prichard.

Mrs. Prichard brought home with her a sliver of rubber and two seeds for planting a rubber tree. She related that the rubber tree is tapped similar to tapping for maple and the rubber sap is then extracted from the tree. The sap is distilled making rubber.

Being assistant librarian at the Randall City-County Library, Mrs. Prichard took special note of the hundreds of bookshops which were located in Japan and at the number of people who could be seen on the streets reading books and learning English.

Three Teams Lead Majors

The Red Legs, Yankees and Dodgers are going nip-and-tuck on the season standings with 4-3 records in the Little League Majors.

Other teams of the league are the Braves who stand 4-4, and the Astros who are 2-5.

In last week's action the Dodgers downed the Braves 24-2 on Wednesday; the Braves outhit the Yankees 7-6 and the Red Legs downed the Astros 13-8, both on Friday. Saturday the Yankees won 8-4 over the Astros.

Monday's game between the Dodgers and Braves was called off because of rain showers.

Barbeque Plan To Be Tested

A proposal to serve barbeque supper before each performance of "TEXAS" in Palo Duro Canyon State Park will be tested by about 50 board of directors for the show's sponsoring Panhandle Heritage Foundation Tuesday.

The board members will gather at the theatre at 6 p.m. to make a "trial run" of the planned procedure and to inspect a new concrete crossover back stage.

Should the barbeque supper plan prove acceptable, the meal will be served from 6:30 until 8:30 p.m. each evening before the production begins.

In the 7-10 age group, Jerry Townsend caught the largest fish which measured 16 inches and Ricky Rogers had the largest string of fish with 36.

Rick McDowell caught an 18 inch fish to capture the plaque for the largest fish in the 11-14 age group. The largest string in the 11-14 age group went to Randall Hicks with 23.

Recruiting Great This Year For WT

"This has been the greatest recruiting year since I've been here at West Texas. We got nearly every boy we went after and that includes some of the finest football players in the country."

These words, spoken by a jubilant Joe Kerbel, sum up WTSU's 1966 schoolboy recruiting bonanza.

Latest addition to the Herd is Tom Lewis of Rockport, perhaps the largest schoolboy athlete in the state. Lewis, who is 6-9 and weighs 330 pounds, was signed to an athletic contract last Thursday by WT assistant Ken McCullough.

An all-around athlete, Lewis excelled in football, basketball and track and field. He was the state Class AA champion in both the shot (57-1) and discus (165-4).

In football, Lewis performed at offensive tackle and defensive middle guard. As a basketball player, he led Rockport to the state tournament in his junior season. Only an average scorer, Lewis was known for his rebounding and intimidating defensive play.

Among the outstanding Panhandle area linemen casting their lot with the Buffs are end Jim Moffitt (Amarillo High); guards Bill Weatherly, Friona, Rick Fangman, Hereford and Robert Rapp, of White Deer and centers Wynn Robertson, Crosbyton, and Jackie Huff of Post.

Area backs enlisted by the Buff coaching staff include Bobby Smith, Andrews and quarterback Darrell Wynn of Follette.

Dallas (Lincoln), Houston (Sam Houston) and Odessa (Ector) are the top suppliers of Buff freshman cnadidates. Lincoln recruits include tackle Lionel Turner, fullback Alvin Dismukes and quarterback Ralph Anderson.

The Buffs already sport three varsity players from Lincoln - starting backs Charles Henderson and Duane Thomas and defensive guard Lawrence Fowlks.

Odessa Ector signees are quarterback Clarence (Pooky) Redic, fullback Harold Stuart and flanker Charles Lewis. Sam Houston recruits are end Duane Fetchner, guard Wayne Adams (6-5, 255) and quarterback Don Moon.

Other new Buffs include ends Lane Crist, Clayton, N.M., and Alan Whiting of Camp Spring, Md; tackles Charles Hankins (6-4, 260) of Lawton, Okla., and Rockport's Lewis; guards Lyndol Williams, Elk City, Okla. and Milton Young, Fort Worth and center Jerry Cryer of Austin (Travis).

Promising backfield candidates Calvin Hinderman of Beeville (9.6), George Carter (9.6) of Danvers, Mass., Louis Helm, Sweeny, Clarence Johnson, Ipswich, Mass. and Wayne Brechtel of Johnsonburg, Pa., round out a bright freshman outlook for 1967.

SwimmersTake Top Trophies

Bradley and Bryan Garner, 8 and 10 years old respectively won trophies recently for outstanding swimming competition as members of the Amarillo Acquatic Club.

The sons of Mr. and Mrs. Gary Garner are part of a 60-member team in the club.

As members of the team, the boys participated in various inter-squad meets.

Their awards were presented at the Canyon City Club.
